Response to Amendment

1. Applicant's amendment of March 24, 2004 is acknowledged and entered as paper number 12.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Applicant's remarks have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

4. Claims 1 and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Akeel in view of Lacchia et al.

The patent to Akeel discloses paint spraying apparatus comprising:

- a bell applicator 14 having a paint receptacle and being movable to and from a docking position;
- a paint canister 12 in the bell applicator connected to the paint receptacle;
- a paint filling station having a paint injector 18 attached to the paint filling station, the injector 18 being adapted to be connected to a paint, the filling station being actuatable to move the paint injector to the docking position along a docking axis for engagement with the paint receptacle for filling the paint canister.

Akeel does not disclose an electrostatic painting apparatus and at least two paint injectors. The patent to Lacchia et al. teaches an electrostatic spray painting apparatus comprising an electrically charged bell applicator B and a product change unit C having

Art Unit: 3752

paint injectors P1 and P2 for different coating products. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified the device of Akeel by electrically charging the bell applicator to provide electrostatic painting and to have provided two paint injectors for different coating products as taught by Lacchia et al.

Allowable Subject Matter

5. Claims 6, 7, 9, 21-26, and 28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 16-20 are allowed.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3752

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
